# good looks that run deep

Krono Original® is all about breaking the mould and challenging convention. That's why the beauty of these designs is far more than skin deep. So for instance, you'll love the way the 1clic2go system makes fitting Krono Original® simple and satisfying. And Aquastop moisture protection means your floor keeps its good looks through the years. With Krono Original®, beautiful innovation runs right through.

## Guarantee

All Krono Original® laminate floors are put through a series of rigorous tests in order to comply with international quality standards, which is why we give you an extensive guarantee with every product. You can rest assured that, whatever range you choose, it's going to be easy to maintain and will give you enjoyment for many years to come.

## Stain and imprint resistant

Whatever you might spill, be it red wine, oil or jam, don't panic; it can be easily removed. Krono Original® is also abrasion resistant, robust and proven to be one of the most resistant floorings available, even heavy furniture won't leave an imprint (ideally, castors and furniture legs should be protected with felt pads).

## Twin Clic

The Krono Original® Twin Clic system has been specifically designed to make fitting your laminate flooring as easy and hassle free as possible. With Twin Clic, the self aligning tongue and groove profile allows individual panels to be joined together quickly with minimal tools or complications.

## 1clic2go

Our 1clic2go system simply clicks together for easy installation, especially in hard to reach areas like radiators and doorways. To show that the panel has been correctly installed, you'll hear a click when the end section connects. High stability prevents joints from coming open.

## Multi Patent Indemnity

Enjoy 100% security with multiple patent protection! In addition to the Kronoflooring patents, this Multi Patent Indemnity certificate provides extensive protective rights for VALINGE INNOVATION AB International and UNILIN patents worldwide. This involves assured, unrestricted product use of the glue-free click system for the trade.

## A.B.C. Anti Bacterial Coating

Keeping your flooring as clean and free of bacteria as possible is naturally a major concern. We can't see germs, but we all know the problems they can cause if left unchecked. Allergies can be aggravated and illness can result. A Krono Original® A.B.C. Anti Bacterial Coating inhibits the growth of bacteria on your flooring and provides you with the peace of mind that comes from a healthy home environment.

## Authentic Embossed

The high quality Authentic Embossed structures feature elegant contrasting and a thrilling multi-gloss effect that emphasises the depth of the structure with matt and gloss elements that reflect the light differently. The synchronous pores follow the grain of the decor, meaning they flawlessly mimic the character of natural wood.

## Handscraped

A breathtakingly elegant and realistic oiled wood finish, with gentle irregular undulations, inspired by traditional Amish craftsmanship. The soft matt surface replicates the hardwood area of solid flooring gently polished over time due to footfall. Meanwhile the deep matt pores are highlighted with glossy accents.

## Eco Friendly

All Krono Original® floors are environmentally friendly as standard made of 70% wood sourced from sustainably managed forests. What's more, the entire production chain – from raw materials to the finished product – has been certified and is regularly inspected by independent experts, ensuring peace of mind for you – and protection of our environment.

From highly acclaimed decors to clever click-into-place fitting, Krono Original® boasts the very latest in innovative features and top quality specifications.

## feels as good as it looks

You can have it both ways. On the one hand you enjoy the tactile aesthetic of superbly reproduced natural textures, yet with none of the drawbacks of a real wood floor. The Krono Original® Authentic Embossed / Living Pore range gives you the look and feel you'll love, plus the convenience and advantages of a high quality, 21st century laminate material.

K051 Pier Oak (MO)

A Krono Original® floor is a joy to live with. Our stylish portfolio of surface textures is created for long-lasting comfort and good looks. Above all, Krono Original® floors are beautifully simple to keep clean, just a quick wipe whisks away allergy-causing dirt and dust.

# a new level of perfection

Handscraped, a breathtakingly elegant and realistic oiled wood finish, with gentle irregular undulations, inspired by traditional Amish craftsmanship and achieved through groundbreaking embossed-in-register technology. The soft matt surface replicates the hardwood area of solid flooring gently polished over time due to footfall, while the deep matt pores are highlighted with glossy accents.

Striking floorboard aesthetics.

"I'm a unique individual, with a unique personality. My home reflects this. I insist on surrounding myself with fabrics and furnishings that reflect my personal taste and my attitude to life. Flooring is crucial. It sets the tone as soon as you enter a room. I chose a Krono Original® floor with handscraped texture. It has style, is easy to lay and is perfectly simple to care for. It ticks all my boxes."

# for your habitat, and for the environment

Krono Original® is a concept rooted in long term perspectives. Sustainability is at the heart of how Krono Original® is made, and where its future lies. Timber is sourced from responsibly managed forests, and the product is fully recyclable. It also comes from Europe's leading wood-panel manufacturing group, an organisation that's been truly committed to reducing its environmental impact for many years. Depend on it, your Krono Original® floor works with nature's grain.

8475 Mustang Slate (A5)

"I won't compromise my principles. When I buy something, I want to be sure it comes from sustainable sources. So I checked out Krono Original® floorings and found out they use timber from responsibly managed forests. I trust them because, being one of the world's leading manufacturers of laminate flooring, they have a sustainability policy which commits them to reducing their impact on the environment. Which means I can update my home with renewable materials."

Wood is our world. And wood is natural. Consequently, we are at one with nature. In our production and in our philosophy. Because we want to give back to nature what it gives us in quality of life. That's why we are careful to only use wood from sustainably managed forests, FSC® and PEFC certified, with completely traceable origins. In our manufacturing processes too, the environment is always foremost in our mind. Our objective is to keep waste from production as low as possible – and indeed throughout the entire product life cycle. We achieve a high recycling rate within the manufacturing process or alternatively use waste material to generate carbon-neutral energy for our production facilities. Our water and energy consumption is constantly monitored. This enables us to quickly identify potential savings and of course implement them in an environmentally friendly way. This affinity for nature carries over into our products. Our floors are not only environmentally friendly, but also contribute to a healthy living environment. We are committed to using low emission bonding agents that contribute to the overall healthy balance of our products.
