Color Collection

Naturally, the more color options you have, the more you're able to achieve the effect your imagination has led you to. The 48 Kronoart® uni colors give the freedom to design the most strikingly vibrant looks or subtle statements. They allow you to create precise moods – confident and powerful, calming, trustworthy, corporate, domestic, ultra modern or unobtrusive. And given ease of handling and straightforward maintenance characteristics, Kronoart® Colors retain the look you specify, year in, year out.

Product Overview

Kronoart® is a high-quality product used for long lasting applications for facade claddings. Kronoart® offers you the ideal mix of design freedom and amazing durability to create stunning architectural facades. The color and textural choice is impressive, from bold to subtle and every option in between. Kronoart's very high pressure, high temperature paper lamination process produces an exceptionally weather resistant HPL board for exterior applications, to EN 438-6 type EDF. Suspended ventilated facades, facings, sunshields, external partitions, fences, railings – Kronoart's fire and UV resistant characteristics make it the solution of choice for all manner of projects.

Sizes

Thickness (mm):
6, 8, 10

Board Format (mm):
2800/5600 x 2040, 3050 x 1300, 4200 x 1300

Elements Collection

These rugged, elemental decors echo the strength and integrity of traditional materials such as cast iron, stone and steel. They give you the latitude to design striking exteriors of character and real presence, full of texture and raw natural tones. But unlike their original counterparts, these color-fast finishes are very simple to maintain and clean, and exceptionally easy to handle.

Fundamentals Collection

Pairing the natural character of wood with modern materials and forms offers you an almost limitless array of design directions. Kronoart's Fundamentals are fully aligned with the concept, ranging from dramatic dark decors to light white pine and warm mid tone oaks. Highlight features, bring in contrasts, soften the impact of concrete, add definition and rich grained character – with Kronoart® you can achieve the look without the installation, maintenance and variability issues of wood.
